

AIR TREATMENT FILTERS

Enclosed pre-filter

PPM

The PPM is a progressive synthetic filter made of polyester. Its solid structure and its filter media with a high dust accumulation capacity make it an excellent choice for even heavy industrial processes.

PPM

APPLICATIONS :

- For ventilation and air-conditioning systems.
- Ideal for industrial processes

Specifications

EN 779-2012 efficiency	G4
Initial pressure drop	54 Pa
Thickness	48 mm
Frame	Galvanised
Media	Synthetic
Maximum temperature	100 °C
Relative humidity	100%
Recommended final pressure	250 Pa
